Credit arrangements for Temasek Polytechnic students

The University of Melbourne is committed to offering suitably qualified articulating Temasek Polytechnic students admission to undergraduate degrees with credit. The amount of credit granted depends on the content and standard of the studies undertaken within the diploma and your intentions regarding the structure of your course at the University of Melbourne.

The information below is intended to provide guidelines of the current arrangements in place for Temasek Polytechnic students interested in the University of Melbourne. In order to be eligible for the arrangements listed below you must meet the minimum Grade Point Average (GPA) and satisfy the University of Melbourne’s English language requirements.

If you are completing a diploma not included below you are encouraged to apply and your application will be assessed individually.

### BACHELOR OF BIomedICINE

The Bachelor of Biomedicine provides the solid foundation necessary to prepare students for health-related and other professional programs and specialised graduate research. At the core of the degree is knowledge of the normal structure and function of the body and consideration of the determinants of disease. Students in the Bachelor of Biomedicine will also develop fundamental skills in the scientific method, critical thinking and problem solving, the analysis of evidence and communication.
