International students: 2018 score 80

TCFS prerequisite subjects EAP, English and one of Biology or Chemistry

Domestic students: Applicants who achieve the minimum ATAR for a course will be eligible for a place, provided prerequisite studies and any other specific course requirements are met.

The Clearly-in Rank may be higher, depending on demand for the course and the number of places available. Only applicants eligible for special entry schemes will be admitted below the minimum ATAR. Minimum ATARs are reviewed annually.

International students: Indicative score only (entry is not guaranteed). Domestic students completing an international qualification: The score listed should be considered a minimum score to be eligible for a place in that course. The actual standard required may be higher depending on the demand for the course and the number of Commonwealth Supported Places (CSPs) available.

For students with English as their second language, a pass in English B at the required level will be accepted as satisfying the English prerequisite. Except where specified, IB subjects must be passed to at least Grade 4 Standard or Higher Level.

Accepted GCE AS and A Level English subjects are: General Paper, General Studies, English Language and Literature, English Literature, English Language. Singapore A Level subject Knowledge and Enquiry (H2) is also accepted. A grade of at least C is required to meet the University’s English language requirements and also in prerequisite subjects unless stated otherwise.

International students studying the VCE, an Australian FEE-LEP or an Australian VET in Sydney, must apply through VTAC.
The Bachelor of Oral Health prepares oral health therapists, including dental hygienists and dental therapists, with the latest skills and developments in the field.

Gain scientific and clinical skills
As a Bachelor of Oral Health student, you enjoy all the scientific, theoretical and clinical skills required for practice as a health therapist. You will spend approximately 60% of your time in clinical placement-compliance environments. You will also have the opportunity to undertake placements in metropolitan clinics and rural areas.

Career outcomes
On graduation, you could practise as an oral health therapist, a dental therapist or a dental hygienist.

Professional recognition
The Bachelor of Oral Health is recognised in all Australian states and New Zealand, and is accredited by the Australian Dental Council for the registration of oral health therapists. Graduates are registered with the Dental Board of Australia and are eligible for membership of the Australian Dental and Oral Health Therapists’ Association and the Dental Hygienists’ Association of Australia.

Further study options
You’ll be eligible for entry into a range of postgraduate courses in public health, clinical dental treatment and research.

Vocational clinical practice
You’ll have the opportunity to undertake vocational clinical practice.

Entry
Entry to the Bachelor of Oral Health is competitive. You may be required to attend interviews. Further information is available at dental.unimelb.edu.au/how-to-apply.

Admissions
International students
Tuition fees are charged for each year that you remain enrolled. You will also need to pay the student contribution amount or the student contribution amount can be deferred through HECS-HELP if eligible students.

Fees
Domestic students
All domestic undergraduate students are invited to apply to a Commonwealth Supported Place (CSP), subsidised by the Australian Government. Payment of the student contribution amount can be deferred through HECS-HELP if eligible students. Further information is available on the VTAC website.

Finance
The Melbourne Scholarships Program gives you the opportunity to draw on the University’s special entry scheme. If you are a domestic student, you can apply for Access Melbourne, the University’s special entry scheme. If you are an international student, you can apply for equity scholarships.

Scholarships
Please consult the Bachelor of Oral Health School has a great reputation. I like that we get hands-on experience from the beginning of our first year in the latest facilities.” Hannah Oates (Australia)

Access Melbourne
If you are a domestic student, you can apply for Access Melbourne, the University’s special entry scheme. Access Melbourne can help you gain a place in a course. Visit the website before the Close of Enrolments to help you gain a place in a course. Visit the website before the Close of Enrolments to help you gain a place in a course.

$4.3 million in equity scholarships available
Bachelor of Oral Health

The Bachelor of Oral Health prepares oral health therapists, including dental hygienists and dental therapists, with the latest skills and developments in the field. 

Gain scientific and clinical skills

As a Bachelor of Oral Health student, you will develop the scientific, theoretical and clinical skills required for practice as a health therapist. Depending on your choice of degree pathway, you will undertake learning in oral health therapist practical, oral health therapist clinical, and dental therapist practical. Oral health therapists train alongside dental students at the Melbourne Dental School in a high-tech clinical setting. You will also have the opportunity to undertake placements in appropriate clinics and rural areas.

Career outcomes

On graduation, you could practice as an oral health therapist, orthodontist or a dental hygienist.

Professional recognition

The Institute of Dental Health is recognised in all Australian states and New Zealand, and is accredited by the Australian Dental Board of Australia and the Dental Board of New Zealand. Graduates are registered for the Dental Board of Australia and are eligible for membership of the Australian Dental and Oral Health Therapists’ Association and the Dental Therapists’ Association of Australia.

Registries may be granted to graduates of other Australian and international universities, subject to the approval of the board or other appropriate authorities of the registering authorities.

You will receive regular updates on the Australian Health Practitioner Regulation Agency (AHPRA) website when you are accepted into the course.

Further study options

You’re eligible for entry into a range of graduate courses in public health, health services management and research.

A number of graduate courses are available in the humanities and social sciences, business and economics, law, accounting, science, teaching and more.

Access Melbourne

If you are a domestic student, you can enhance your application for selection by applying for Access Melbourne, the University’s special entry scheme. Access Melbourne can help you gain a place in a course, even if your ATAR is below the Clearly-in Rank, by letting you apply outside the ranking criteria that have affected your education.

Applications are made via the Special Access Entry Scheme (SAES) application on the VTAC website.

Scholarships

The Melbourne Scholarships Program offers one of the most comprehensive and generous in Australia. It recognises and promotes academic achievement and talented students to study at Melbourne. Scholarships are available in academic, cultural, geographic and other areas, including those undertaking foundation components: oral health sciences, dental hygiene, health promotion and a range of clinical dental treatment, and undertake
